◆ FPT University HCM

September 2016 - April 2020

Major: Software Engineering

Coursework: Front-end Web Development, Java Web Development, Data Structures and Algorithms, Software Requirements, Software Testing, Java OOP, Java android .Net and C#, Cloud

SKILLS

Skills language	Frontend Stack: React.js, Next.js, Vue.js (2 & 3), Nuxt.js, Redux, HTML5/CSS3, JavaScript (ES6+), TypeScript. Backend & Database: Node.js, NestJS, Spring Boot, SQL (MySQL/PostgreSQL), NoSQL (MongoDB). Design & Tools: Figma, Adobe XD, Git, Docker, Jira, Slack/Lark.
Language	English.
Computer	Word, Excel, Powerpoint, Teams
Design & Tools:	- Figma, Adobe XD, Stitch google AI - Github, gitlab, Docker, Jira, Slack/Lark/Teams.
Tool management task	Backlog, Jira, Redmine,Lark
Soft skills	Communication skills, Teamwork, Presentation,Problem-solving, Self-study.

WORK EXPERIENCE

◆ Company: Gianty VN

January 2026 - June 2026

Go project - Senior Frontend Developer

Techs: Vuejs 2 , vuejs 3 , nuxt 2, nuxt 4

Tool: figma, Stitch (Google AI)

Source control: github

Responsibility:

+ Develop new feature

+ Maintain old functions

+ Successfully migrated a core web application from Nuxt 2 to Nuxt 4, improving Core Web Vitals (LCP/FID) by 25% and optimizing bundle size.

+ Optimized application responsiveness and reduced initial bundle size by implementing route-level Lazy Loading (page-based splitting) and dynamic component imports.

Using tool AI: antigravity, claude,...

◆ Company: Gianty VN

September 2023 - January 2026

NobiNobi project - Senior Frontend Developer/Software engineer

Techs: Reactjs, Nextjs , Nodejs , Nestjs ,Ant Design ,Typescript , Strapi

Tool: figma

Source control: Gitlab, github

Responsibility:

+ Chosen technology stack and initialized source code frontend

+ Develop UI and function handle(include funtionc common)

+ Develop common components for reuse in UI

+ Integrated with APIs

+ Develop FCM with firebase

- + check merge request, deploy to environments, fix conflict merge request
- + Fix bug (issue critical, high or hotfix)
- + Discussed business requirements
- + Management task and estimate task follow agile development processes
- + Support member with technical issues, algorithm issues
- + Implemented E2E testing using Playwright, reducing regression bugs by 30% and improving deployment confidence.
- + Working with B2C, B2B, B2B2C platform, ERP platform for company
- + Optimized initial page load time and code splitting by implementing Lazy Loading for pages and heavy components using Next.js dynamic imports, significantly reducing the main bundle size and improving the overall User Experience.
- + Develop API

Using tool AI: chatgpt 4.0, cursor, claude,...

◆ **Company: DIGITAL UNICORN - Freelancer**

March 2025 - January 2026

HKN project - Frontend Developer

Position: Frontend developer

Techs: Vuejs 3 , javascript, Typescript, D3js , chartjs

Tool: figma

Source control: Gitlab, github

Responsibility:

- + Design UI mapping figma perfect pixel
- + Integrate API ,firebase with Backend team

Using tool AI: chatgpt 4.0, cursor, claude,...

FMP Medical CENTER project - Frontend Developer

Position: Frontend developer

Techs: Vuejs 3 , javascript, Typescript, Strapi(CMS)

Tool: figma

Source control: github

Responsibility:

- + Design UI mapping figma perfect pixel
- + Integrate API with Strapi CMS ,firebase

Using tool AI: chatgpt 4.0, cursor, claude,...

◆ **Company: Gianty VN**

April 2023 - October 2023

R&D project - Middle Frontend Developer/Software engineer

Position: Leader Project - Scrum master

Techs: Vuejs 2, Nuxtjs 2, Java spring boot

Source control: Gitlab

Database: Mysql - graphQL

Responsibility:

- + Choose tech for project and init source code
- + Develop UI and function handle(include function common)
- + Develop components for reuse in UI
- + Integrate with API,
- + Develop login with OAuth2
- + Fix bug Backend, Frontend (issue critical, high or hotfix)
- + Design work flow
- + Confirm business with BA
- + Management task and estimate task follow agile development processes

◆ **Company: Gianty VN**

August 2022 - April 2023

SBworks project - Middle Frontend Developer

Techs: Vuejs 2 , Nuxt 2

Source control: GitHub

Responsibility:

- + Develop UI and function handle

- + Maintained the system by resolving legacy source code issues
- + Intergrate with API
- + Fix bug(fix issue old to maintaince system and fix logic code from source code(Example: coupon flow, payment flow,...))

◆ **Company: FPT software HCM** September 2021 - August 2022

FUKUMA project - Frontend Developer

Techs: Vuejs 2 , Vuejs 3, Nuxt 3 , JQuery

Database: MySQL

Source control: GitHub

Responsibility:

- + Develop UI and function handle
- + Maintained the system by resolving legacy source code issues
- + Intergrate with API
- + Fix bug

◆ **Company: FPT software HCM** August 2021 - September 2021

HTCTOPE project - Frontend developer

Techs: HTML, CSS, Bootstrap, Javascript, JQuery, Vue 2

Database: MySQL

Source control: GitLab

Responsibility:

- + UI integration from internet explorer to edge
- + Implement a new feature ticket
- + Fix bug
- + Write test case, test manual

◆ **Company: FPT software HCM** January 2021 - August 2021

SENMONTEN - Fullstack developer

Techs: Java Spring boot(Jpa, Hibernate), VueJs framework(Vue 2),

Database: PostgreSQL

Source control: GitLab

Responsibility:

- + Develop business functions
- + Develop common front-end functions and components
- + Support write tool dummy database, migrate and manage database
- + Develop tool data check for Senmonten project(Full java spring boot)
- + Fixbug common in Frontend and Backend

◆ **Company: FPT software HCM** July-2020 - January 2021

HINO project - Fullstack Developer

Techs: Java Spring boot(Jpa, Hibernate), Jasper Report, VueJs framework(Vue 2),Test automation(Junit test)

Database: PostgreSQL

Source control: git lab

- + Develop API

EXTRACURRICULAR ACTIVITIES

- I'm the team leader of a football team and a member of 2 other football teams in Ho Chi Minh city.
- In the ByeCovid Football League at FPT University, I won the cup with my team.
- In the Winter LPBank 2022 football League at Dalat, I won the cup with my team.

- In the TechCup 2024 Football League at Sala, I won the cup with Gianty company team
- Participate in learning soft skills at "Trung tam Huan luyen the he tre ".
