Address: Ho Chi Minh, Vietnam

WORK EXPERIENCE

01/2026 - Now

Company: Gianty VN

Go project - Senior Frontend Developer

Techs: Vue.js 2, Vue.js 3, Nuxt.js 2, Nuxt.js 4

- + Develop new features, maintain existing functions
- + Successfully migrated a core web application from Nuxt 2 to Nuxt 4, improving Core Web Vitals (LCP/FID) by 25% and optimizing bundle size.
- + Optimized application responsiveness and reduced initial bundle size by implementing route-level Lazy Loading (page-based splitting) and dynamic component imports.

08/2023 - 01/2026

Company: Gianty VN

NobiNobi project - Senior Frontend Developer/Software engineer

Techs: React.js, Next.js, Node.js, NestJS, Ant Design, TypeScript

- + Selected technology stack and initialized frontend source code.
- + Developed UI and integrated with APIs (including implementing core/common components).
- + Implemented backend APIs using NestJS.
- + Integrated Firebase Cloud Messaging (FCM) for push notifications.
- + Worked on E-commerce systems including B2C, B2B, and B2B2C web platforms, as well as ERP modules (Sales, Users, Multi-warehouse, Promotions, Products, Affiliate, E-kyc, etc.).
- + Developed B2C web affiliate programs (similar to the Shopee model), loyalty platforms, and gamification campaigns.
- + Implemented E2E testing using Playwright, reducing regression bugs by 30% and improving deployment confidence.
- + Optimized initial page load times and code splitting by implementing lazy loading for pages and heavy components via Next.js dynamic imports, significantly reducing main bundle size and improving overall User Experience (UX).

01/2025 - 01/2026

Company: DIGITAL UNICORN - Freelancer

Fullstack Developer

HKN project - Fullstack Developer

Techs: Vue.js 3, javascript, Typescript, D3.js, chart.js, Nest.js

- + Build CMS website with UI mapping figma perfect pixel

FMP Medical CENTER project - Fullstack Developer

Techs: Vue.js 3, javascript, Typescript, Strapi(CMS)

- + Build website with UI mapping figma perfect pixel

04/2023 - 09/2023

Company: Gianty VN

R&D project - Middle Frontend Developer/Software engineer

Techs: Vue.js 2, Nuxt.js 2, Java spring boot

Responsibility:

- + Selected technology stack and initialized frontend source code.
- + Developed UI and integrated with APIs (including implementing core/common components).
- + Implemented backend APIs using Java.
- + Login with OAuth2
- + Management task and estimate task follow agile development processes

08/2022 - 04/2023

Company: Gianty VN

	SBworks project - Middle Frontend Developer Techs: Vuejs 2 , Nuxt 2 Responsibility: + Develop UI and Intergrate with API + Maintained the system by resolving legacy source code issues + Fix bug(fix issue old to maintaince system and fix logic code from source code(Example: coupon flow, payment flow,...))
08/2021 - 08/2022	Company: FPT software HCM FUKUMA project - Junior Frontend Developer Techs: Vuejs 2 , Vuejs 3, Nuxt 3 , JQuery Responsibility: + Develop UI and intergrate with API + Maintained the system by resolving legacy source code issues.
09/2021 - 08/ 2021	Company: FPT software HCM HTCTOPE project - Junior Frontend developer <i>HTCTOPE project - Fullstack developer</i> Techs: HTML, CSS, Bootstrap, Javascript, JQuery, Vue 2,Java Spring boot Responsibility: + UI integration from internet explorer to edge + Implement a new feature ticket + Write test case, test manual
07/2020 - 09/ 2021	Company: FPT software HCM SENMONTEN - Fullstack developer Techs: Java Spring boot(Jpa, Hibernate), VueJs framework(Vue 2) + Develop common front-end functions and components + Write tool dummy database, migrate and manage database + Implement API
SKILLS	
Skills language	Frontend Stack: React.js, Next.js, Redux, Vue.js (2,3,4), Nuxt.js (2,3,4), , HTML5/CSS3, JavaScript (ES6+), TypeScript. Backend: Node.js, NestJS, Java Spring Boot Database:SQL (MySQL/PostgreSQL), NoSQL (MongoDB).
Design & tools	- Figma, Adobe XD, Stitch google AI - Github, gitlab, Docker, Jira, Slack/Lark/Teams. -Claude, cursor , antigravity,...
Tool management task:	Backlog, Jira, Redmine,Lark,
Soft skills	Communication skills, Teamwork, Presentation,Problem-solving, Self-study.
EDUCATION	
09/2016 - 04/2020	FPT University HCM Major: Software Engineering
