WORK EXPERIENCE

GIANTY VIETNAM — Senior Frontend / Full-stack Developer

08/2022 – Present

Tech Stack: Nuxt.js (2/4), Vue.js (2/3), Next.js, React.js, NestJS, TypeScript, Ant Design, Playwright, Java, Vite, WebSocket.

- **Core Framework Migration:** Spearheaded the successful migration of an enterprise web application from Nuxt 2 to Nuxt 4, boosting Core Web Vitals (LCP/FID) by 25% and reducing main bundle size.
- **Performance Engineering:** Implemented route-level lazy loading, code splitting, and dynamic imports in Next.js/Nuxt.js, optimizing initial page load times and user experience.
- **Security & Quality Assurance:** Enforced frontend security standards (XSS prevention, safe DOM manipulation) and automated E2E testing with Playwright, reducing regression bugs by 30%.
- **E-Commerce & Enterprise Platforms:** Architected and built scalable B2C, B2B, and B2B2C e-commerce platforms, affiliate loyalty systems (Shopee model), and core ERP modules (Sales, Multi-warehouse, E-KYC).
- **Full-stack:** Engineered high-performance communication across microservices using *gRPC* and *RESTful APIs* with NestJS, alongside WebSocket interfaces for real-time live data synchronization and Firebase FCM push notifications.
- **AI Chatbot Integration:** Architected and integrated an **AI-powered chatbot** using modern LLM APIs (OpenAI / Claude), featuring real-time streaming responses (SSE/WebSocket), smart context management, and custom conversational UI components to elevate user engagement.
- **Code Review & Collaboration:** Actively reviewed pull requests, strictly maintained technical spec checklists, and communicated technical decisions clearly with cross-functional stakeholders.

DIGITAL UNICORN — Freelance Full-stack Developer

01/2025 – 01/2026

Tech Stack: Vue.js 3, TypeScript, NestJS, D3.js, Chart.js, Strapi CMS, Figma

- **CMS & Data Visualization:** Developed responsive CMS web portals with pixel-perfect UI implementation from Figma, integrating interactive data charts using D3.js and Chart.js.
- **Headless Architecture:** Engineered scalable headless CMS solutions for medical center platforms (FMP) utilizing Strapi and Vue 3.

FPT SOFTWARE HCM — Junior Full-stack / Frontend Developer

07/2020 – 08/2022

Tech Stack: Vue.js (2/3), Ant Design, Material UI, Java Spring Boot (JPA/Hibernate), Nuxt.js 3, JavaScript, jQuery, Socket.io, MySQL

- **Core Development & Real-Time:** Designed reusable UI components in Vue.js, built backend RESTful APIs with Java Spring Boot, and integrated **Socket.io** for real-time bi-directional data updates across client-server modules.
- **System Modernization:** Successfully led UI migration initiatives from legacy browsers (Internet Explorer) to modern Edge standards and resolved complex legacy system issues.
